<p>Bond 2020 Dr. Thomas Randle, Superintendent</p>	<p>Dr. Randle introduces the Bond. It is explained that we conduct research for our Bonds, we have 43 campuses.... We are an A rated district. We make up 43% of Fort Bend County, 385 square miles, we have 15 municipalities, we are the 5th fastest-growing district in Texas. Out of the 61 Greater Houston school districts, LCISD ranks as #2 for housing starts. Over 40K new single-family homes are projected over the next decade. Over 8K multi-family homes are projected as well. 20-29K new students are projected to enroll in the next 10 years, which would put us over 60K students. Dr. Randle explains the projections thus far have been on point. We currently have 206 portable classrooms that we are using to manage our growth which accounts to 5 elementary schools. We started the summer with 61 members for the Citizen Bond Committee. Because the Legislature changed we have to do our Bond by propositions, so our Bond was split into 4 propositions.</p> <p>Dr. Randle goes over the details for each proposition as outlined in the Bond Presentation and expands on some of the purposes/reasons for specific items on the Bond (i.e. pool, stadium, technology, and building improvements). Over 65% of Bond 2020 is for new schools and land. Dr. Randle explains impact on taxes for homeowners as a result of the Bond. Dr. Randle explains our historic tax rate and shows that our tax rate as stayed flat and steady.</p> <p>Early voting begins next week October 13th-30th and Election day is on November 3rd.</p> <p>Dr. Randle opens the floor for questions.</p> <p>Where will the new high school be? – Currently undetermined due to the fact land has not been purchased but will most likely be in the northern part of the district since the newest high school (Randle HS) is in the south.</p>

	<p>Have we considered/discussed having a virtual track? – no but we have had to be very creative during this COVID 19 experience so it is not impossible.</p>

Our CIP and DIP goals come out of these (are aligned) and will be presented in December. We have to ensure students have access to engaging, rigorous, real-world learning opportunities, and up-to-date technology. All campuses have a goal to be an A or B campus as set forth by and assigned by TEA. We also have a goal to equip all parents and guardians with the tools to support student learning and growth. We have now implemented full day Pre-K. We will continue to provide family engage opportunities including Project Learn, Pre-K, and EL Family Engagement Events, and Summer Connect.</p> <p>We also have a goal to expand available resources to provide learning that is personalized to each student’s interests and abilities in order to eliminate gaps in achievement. We have a goal to have a 5% decreases in failures in special education at both the elementary and secondary levels.</p> <p>We have a goal to ensure LCISD graduates have effective critical thinking, problem solving and communication skills in order to be successful in professional and personal relationships.</p> <p>We have a goal to also ensure the curriculum equitably prepares students to achieve their preferred career aspirations by enhancing both rigorous Career and Technical Education (CTE) and college preparatory programs.</p> <p>We also want to increase students’, families’, and community members’ awareness of and access to all</p>

available academic programs. Dr. Mossige shares that we now have 1 program from 6th through 12th grade.
